Manan Shroff

2013-2014 Edition Reference Guides for NAPLEX and QCE "Canadian Qualifying" Pharmacy Licensing Exams "Theory" 4th Edition Part I and II (2 Books) Manan Shroff

This textbook is specifically written for students preparing for NAPLEX® and QCE® exams. It contains over 70 chapters and includes well organized therapeutic classifications at the beginning of each chapter, with brand and generic names of medications. This review guide also covers over 3000 drugs; a sound knowledge of these drugs is an important factor for passing NAPLEX® and QCE® exams. I would also recommend students to read the Reference Guide for the Pharmacy Licensing Exam - Questions and Answers (over 1200 NAPLEX-type questions) and the Reference Guide for Pharmaceutical Calculations (over 500 calculations). Over 70 chapters review the basics of pharmacology. Well organized therapeutic classifications of drugs at the beginning of each chapter. Brand and generic names of medications highly utilized in the U.S. Updated information on newly available drugs. Brief review on over-the-counter drugs & TPN. Antidotes of medications, normal therapeutic serum concentrations of drugs and much more in easy to read tables.
