**Learn from the Best: Build an Acclaimed *Mackie Log House***

This big book gives you 48 log-house plans, with photographs, elevations and building tips. When combined with the basic text of B. Allan Mackie's **Building with Logs**, this book is the next step for the serious log-home builder -- the complete map for getting the job underway.

Designs range from a 432 square-foot guesthouse through a 1,140 square-foot cabin (that began as a ski lodge and eventually became Mackie's home) to a 3,300 square-foot masterpiece that contains a sauna and swimming pool.

Somewhere in this wealth of log-house plans is the perfect home and cottage for all who love logs buildings and are planning one for themselves.

**B. Allan Mackie** continues to teach, design, and build. His schools have trained thousands of good crafts people; some of whom formed building companies internationally, with the result that the worldwide standard for excellence in log building is now a *Mackie* log house.
