Kaplan's, 5-Steps, Crash Course and the others are great resources for reviewing at the end, but Tamm's Textbook Tools accompany kids all year long. This AP World History companion is filled with vocab and assignments that follow the Bentley text throughout the year, all 38 chapters. They can be used as regular weekly assignments or reviews. They can be used on short notice if there is a sub, or be done as homework. All you need is the textbook. Teachers can copy at will, or the book can be used as a student consumable. As publishers started putting the majority of their content online, it opened a niche for traditional paper assignments, a void filled by this series. Whether the textbook itself is written in ink or electrons, students still need to write and keep notes for themselves, and portfolios still matter. These activities challenge students to apply the concepts and give examples, diagramming each chapter as it comes. Find TTT on FB.
