In the past, as in the present, science has explored the reasons for belief. In recent years, with the rise of categorical, practical, and militant atheism, the scientific and philosophical community has begun studying the worldview of atheism. The *Atheist Persona: Causes and Consequences* is a summary of the most recent research, by the best of scholars, on the subject of atheism. In an effort to create a more courteous dialogue between theists and atheists, this book acknowledges that while there are reasons for believing in God, there are also reasons for not believing in God. *Atheist Persona* showcases how the worldview we choose to accept determines how we live our lives and how we influence those around us.
