BOOK #1: Diy Homemade Shampoo: 23 Amazing Herbal Shampoo Recipes That You Can Make at Home

Washing our hair is a ritual that all of us go through regularly. But are we actually doing our hair any good using store-bought shampoos and conditioners? Have you ever noticed the list of ingredients on the label of your shampoo? There are many chemicals in each bottle, some of which are quite toxic if used over a period of time.

Chemicals are added to commercial shampoos to prolong the shelf life, enhance the scent, create the color, and alter the form of the liquid. And that's just the basics. If it is a purpose shampoo for different types of hair, or management of the hair, even more chemicals are added.

The cost of purchasing commercial shampoos and conditioners can be rather expensive. Especially for those who have difficult to manage hair, dry or oily hair, frizzy hair and dandruff. By the time you have bought the right shampoo, conditioner and special treatment preparations, the price is getting pretty high.

More and more people today are looking for natural methods of washing their hair. This book is ideal for those who wish to make their own, and it contains 23 natural shampoo recipes you can make easily right in your own home. They are inexpensive, easy to source ingredients and simple to use.
