## Ordinary Differential Equations (Universitext) Vladimir I. Arnold

Few books on Ordinary Differential Equations (ODEs) have the elegant geometric insight of this one, which puts emphasis on the qualitative and geometric properties of ODEs and their solutions, rather than on routine presentation of algorithms.

From the reviews:

"Professor Arnold has expanded his classic book to include new material on exponential growth, predator-prey, the pendulum, impulse response, symmetry groups and group actions, perturbation and bifurcation." -- SIAM REVIEW

### **From reader reviews:**

#### **Therese Watson:**

This Ordinary Differential Equations (Universitext) are reliable for you who want to certainly be a successful person, why. The main reason of this Ordinary Differential Equations (Universitext) can be among the great books you must have is giving you more than just simple reading food but feed anyone with information that might be will shock your before knowledge. This book is handy, you can bring it all over the place and whenever your conditions both in e-book and printed types. Beside that this Ordinary Differential Equations (Universitext) giving you an enormous of experience for instance rich vocabulary, giving you demo of critical thinking that we realize it useful in your day task. So , let's have it and revel in reading.

#### **Frank Anderson:**

This Ordinary Differential Equations (Universitext) is great e-book for you because the content that is full of information for you who all always deal with world and also have to make decision every minute. That book reveal it facts accurately using great manage word or we can point out no rambling sentences inside. So if you are read the item hurriedly you can have whole details in it. Doesn't mean it only offers you straight forward sentences but hard core information with beautiful delivering sentences. Having Ordinary Differential Equations (Universitext) in your hand like keeping the world in your arm, data in it is not ridiculous one. We can say that no guide that offer you world in ten or fifteen minute right but this book already do that. So , it is good reading book. Hey Mr. and Mrs. hectic do you still doubt which?
