Electric Vehicle Systems Architecture and Standardization Needs: Reports of the PPP European Green Vehicles Initiative (Lecture Notes in Mobility)

This edited volume presents research results of the PPP European Green Vehicle Initiative (EGVI), focusing on Electric Vehicle Systems Architecture and Standardization Needs. The objectives of energy efficiency and zero emissions in road transportation imply a paradigm shift in the concept of the automobile regarding design, materials, and propulsion technology. A redesign of the electric and electronic architecture provides in many aspects additional potential for reaching these goals. At the same time, standardization within a broad range of features, components and systems is a key enabling factor for a successful market entry of the electric vehicle (EV). It would lower production cost, increase interoperability and compatibilities, and sustain market penetration. Hence, novel architectures and testing concepts and standardization approaches for the EV have been the topic of an expert workshop of the European Green Vehicles Initiative PPP. This book contains the contributions of current European research projects on EV architecture and an expert view on the status of EV standardization. The target audience primarily comprises researchers and experts in the field.

From reader reviews:

Donald Jefferies:

Have you spare time for any day? What do you do when you have far more or little spare time? That's why, you can choose the suitable activity with regard to spend your time. Any person spent their spare time to take a go walking, shopping, or went to typically the Mall. How about open or read a book entitled Electric Vehicle Systems Architecture and Standardization Needs: Reports of the PPP European Green Vehicles Initiative (Lecture Notes in Mobility)? Maybe it is to get best activity for you. You realize beside you can spend your time together with your favorite's book, you can more intelligent than before. Do you agree with their opinion or you have some other opinion?

Marilyn Vance:

This book untitled Electric Vehicle Systems Architecture and Standardization Needs: Reports of the PPP European Green Vehicles Initiative (Lecture Notes in Mobility) to be one of several books that will best seller in this year, that's because when you read this e-book you can get a lot of benefit onto it. You will easily to buy that book in the book shop or you can order it via online. The publisher with this book sells the e-book too. It makes you easier to read this book, as you can read this book in your Mobile phone. So there is no reason to your account to past this book from your list.

Allen Reilley:

Is it an individual who having spare time in that case spend it whole day through watching television programs or just laying on the bed? Do you need something totally new? This Electric Vehicle Systems Architecture and Standardization Needs: Reports of the PPP European Green Vehicles Initiative (Lecture Notes in Mobility) can be the solution, oh how comes? The new book you know. You are and so out of date, spending your free time by reading in this new era is common not a nerd activity. So what these publications have than the others?

Douglas Johnson:

What is your hobby? Have you heard which question when you got college students? We believe that that query was given by teacher to the students. Many kinds of hobby, Every person has different hobby. And you also know that little person such as reading or as reading become their hobby. You have to know that reading is very important and also book as to be the thing. Book is important thing to provide you knowledge, except your own personal teacher or lecturer. You discover good news or update in relation to something by book. A substantial number of sorts of books that can you choose to use be your object. One of them is niagra Electric Vehicle Systems Architecture and Standardization Needs: Reports of the PPP European Green Vehicles Initiative (Lecture Notes in Mobility).
