Project Management for the Oil and Gas Industry: A World System Approach (Industrial Innovation Series) Adedeji B. Badiru, Samuel O. Osisanya

Project management for oil and gas projects comes with a unique set of challenges that include the management of science, technology, and engineering aspects. Underlining the specific issues involved in projects in this field, **Project Management for the Oil and Gas Industry: A World System Approach** presents step-by-step application of project management techniques. Using the Project Management Body of Knowledge (PMBOK®) framework from the Project Management Institute (PMI) as the platform, the book provides an integrated approach that covers the concepts, tools, and techniques for managing oil and gas projects.

The authors discuss specialized tools such as plan, do, check, act (PDCA); define, measure, analyze, improve, control (DMAIC); suppliers, inputs, process, outputs, customers (SIPOC); design, evaluate, justify, integrate (DEJI); quality function deployment (QFD); affinity diagrams; flowcharts; Pareto charts; and histograms. They also discuss the major activities in oil and gas risk assessment, such as feasibility studies, design, transportation, utility, survey works, construction, permanent structure works, mechanical and electrical installations, and maintenance.

Strongly advocating a world systems approach to managing oil and gas projects and programs, the book covers quantitative and qualitative techniques. It addresses technical and managerial aspects of projects and illustrates the concepts with case examples of applications of project management tools and techniques to real-life project scenarios that can serve as lessons learned for best practices. An in-depth examination of project management for oil and gas projects, the book is a handbook for professionals in the field, a guidebook for technical consultants, and a resource for students.

From reader reviews:

Margaret Williams:

What do you consider book? It is just for students since they're still students or the idea for all people in the world, the actual best subject for that? Just you can be answered for that issue above. Every person has several personality and hobby for each other. Don't to be pressured someone or something that they don't need do that. You must know how great along with important the book Project Management for the Oil and Gas Industry: A World System Approach (Industrial Innovation Series). All type of book are you able to see on many methods. You can look for the internet options or other social media.

Bobby House:

In this 21st hundred years, people become competitive in each and every way. By being competitive today, people have do something to make all of them survives, being in the middle of typically the crowded place and notice by simply surrounding. One thing that oftentimes many people have underestimated that for a while is reading. Yeah, by reading a guide your ability to survive enhance then having chance to stay than other is high. In your case who want to start reading any book, we give you that Project Management for the Oil and Gas Industry: A World System Approach (Industrial Innovation Series) book as beginning and daily reading publication. Why, because this book is greater than just a book.

Mona Savoy:

Now a day those who Living in the era just where everything reachable by match the internet and the resources included can be true or not need people to be aware of each data they get. How people have to be smart in getting any information nowadays? Of course the solution is reading a book. Reading through a book can help men and women out of this uncertainty Information specially this Project Management for the Oil and Gas Industry: A World System Approach (Industrial Innovation Series) book because this book offers you rich info and knowledge. Of course the details in this book hundred pct guarantees there is no doubt in it as you know.

Laura Burke:

Reading a book to get new life style in this calendar year; every people loves to examine a book. When you examine a book you can get a wide range of benefit. When you read publications, you can improve your knowledge, since book has a lot of information on it. The information that you will get depend on what forms of book that you have read. If you would like get information about your study, you can read education books, but if you act like you want to entertain yourself read a fiction books, such us novel, comics, in addition to soon. The Project Management for the Oil and Gas Industry: A World System Approach (Industrial Innovation Series) will give you new experience in reading a book.
