How can you murder those who are already dead? The Poppleham Ghosts is a Young Adult novel by UK author Steve Martin. Kevin Beeston is a 15-year-old on work assignment with his father's company. The company demolishes old buildings, replacing them with mass-produced buildings. In one of the buildings Kevin encounters a group of ghosts. He finds that these spirits are tied to the old buildings and once the building is destroyed, so are they. Kevin then begins a campaign to save the natural habitat of the Poppleham Ghosts. The Poppleham Ghosts is more than a ghost story and is more concerned with the manner in which the modern world is increasingly sterile and mass-produced and leaves no place for the imagination (symbolized by the ghosts). This is a book that will appeal to Young Adults making the transition from childhood to adulthood and battling with the pressures and realities of today's world.
