Do you ever feel like blogging on your own site is like speaking to a wall? Have you been blogging for months, or maybe even years, but still not ranking on Google for your target search terms?

Do you ever feel like you're stuck in a vicious cycle of publishing epic blog posts, promoting them everywhere you can and still not driving very much traffic?

Well, this book is for people like you. Bloggers with great content who want to **get more traffic**, but aren't sure how to do so.

See, I used to be just like you. I was blogging regularly, but I wasn't seeing the results I wanted.

I'd write what I thought were incredible posts and spend hours promoting them, but then I'd barely get any traffic from them. My blog archive got bigger and bigger, but my traffic, email subscribers, and sales barely grew.

At times, I felt like when I was blogging, the only person reading my posts was my mom.

It was exhausting and frustrating.

What's changed since?

I've figured out how to use guest blogging to get massive amount of traffic, email subscribers, and sales.

I used to think that the phrase, "if you build it, they will come" applied to blogs. I used to post on my own site frequently hoping I'd get more traffic.

But in the past two years alone, guest blogging has been the main reason why my blog grew to the point where I can *now live off of the passive income that it provides me*.

I've been published on huge sites such as *Business Insider*, *Entrepreneur*, *Huffington Post*, and more.

And I want to teach you everything I've learned along the way.

See, in this day in age, **hitting publish simply isn't enough**.

You can't assume that people are going to find your site without you putting in any extra effort.

After all, what's the point of having a beautiful site with great content if no one is looking at it?

The truth is - guest blogging is still an awesome strategy for getting more traffic.

But only if you do it right.

You've got to know how to get other websites to accept your guest post.

You've got to come up with blog post ideas that attract and convert.

And more importantly, you've got to get published in the right places.

In early 2014, there were over 200 million blogs on Tumblr and Wordpress alone.

What are you doing to promote your blog that is going to make you stand out from the millions of other blogs out there?

Luckily for you, I've packed this book with proven methods, tips, and solutions that any blogger needs to know about guest blogging in order to start seeing massive results.
