Angels Around Us / There's an Angel on Your Shoulder Douglas Connelly, Kelsey Tyler

Throughout the vast reaches of God's universe, in a realm unseen through telescopes or microscopes, fantastic, powerful beings dwell. They move at the speed of light carrying out the commands of their master. They inhabit the highest heaven, the atmosphere of earth. They are involved in international political affairs and in the smallest concerns of children. These beings are called angels - angels are everywhere! The phenomenon is astounding and, at the same time, understandable. Our fascination with angels points to our need for a connection with God, and who better to provide that connection than these heavenly messengers in flowing white robes.
