Discover the Best of Biological Anthropology: From its Earliest Foundations to its Most Current Innovations

Biological Anthropology, 3/e is written to appeal to a wide range of students. It continues to build upon the strength and success of its first and second editions by integrating the foundations of the field with the most current innovations happening today.

Over the past 40 years, biological anthropology has rapidly evolved from the study of physical anthropology into biological anthropology. Biological anthropology is now an integrative combination of information from the fossil record and the human skeleton, genetics of individuals and of populations, our primate relatives, human adaptation, and human behavior. The third edition of *Biological Anthropology* combines the most up-to-date, comprehensive coverage of the foundations of the field with modern innovations and discoveries.

Teaching and Learning Experience

Improve Critical Thinking - Visual summaries, critical thinking questions, *Insights and Advances* boxes and author suggested readings found within each chapter encourage students to examine assumptions, discern hidden values, evaluate evidence, assess conclusions, and more!

Engage Students - Woven into each chapter, student-oriented pedagogy, art, photos, and maps help students gain a better understanding of key material.

Support Instructors – Teaching your course just got easier! You can Create a Customized Text or use our

author reviewed Instructor's Manual, Electronic "MyTest" Test Bank or PowerPoint Presentation Slides. Additionally, we offer fantastic bundling options for the lab portion of your course with our Method & Practice in Biological Anthropology: A Workbook and Laboratory Manual for Introductory Courses, or our Atlas of Anthropology. (Both able to be packaged at a significant discount!)
