Being and Becoming European in Poland: European Integration and Self-Identity (Anthem Series on Russian, East European and Eurasian Studies) Marysia H. Galbraith

Overthrowing communism in 1989 and joining the European Union in 2004, the Polish people hold loyalties to region, country and now continent – even as the definition of what it means to be ‘European’ remains unclear. Paying particular attention to those who came of age in the earliest years of the neoliberal and democratic transformations, this book uses the life-story narratives of rural and urban southern Poles to reveal how ‘being European’ is considered a fundamental component of ‘being Polish’ while participants are simultaneously ‘becoming European’. Ultimately, this study demonstrates how the EU is regarded as both an idea and an instrument, and how ordinary citizens make choices that influence the shape of European identity and the legitimacy of its institutions.
