Chasing Shadows: Book One in the Sisters of Shadows and Moonlight Series Maren Meriel McCaffrey

Chasing Shadows is a tale of vengeance among the gods, motives as dark as the deepest abyss. It tells a heartbreaking tale of love, loss and the scars that can only be found on one's soul. Twin sisters, Mistral and Allie, are raised apart after a devastating loss strips them of their parents. Each travels a separate path: one with pain and battle her constant companion; the other challenging forays into the realm of magic and healing. Having developed their skills separately, what will happen when their paths once again converge? Darkness rises and angels fall. Lessons are learned about the love you can hold for the family you've chosen as opposed to the family you were born to...no matter what face that family wears. Loyalty is forged in the fires of frantic combat with the denizens of the Underworld while the measures and limits of love are strained to the breaking point.

Book one tells the story of Mistral—the sister who walks a warrior's path. It reveals the iron strength of a woman's heart to triumph over an evil that re-turns over and over again to strip her of all she loves. You will see Mistral transform from a lost child into a fierce woman and desperate protector. When love comes to find her, she will battle it as furiously as the demons sent to capture her and her sister. Can this woman of shadows and battle win the most important war of all? Can she learn to let someone in and love again? Come and walk the shadowed and sometimes dangerous path to hidden answers along with Mistral. Open your mind to the magic of 'what if' and your heart to a painful journey traveled with a great strength of spirit and determination. Travel with Mistral as she is reborn while Chasing Shadows.

Twins Allie and Mistral share a separation through the foster system all the harder. The "Sisters of Shadow and Moonlight" series follows the sisters as they grow up and become fully immersed in a world of werewolves, demons, and supernatural powers. Urban fantasy lovers will appreciate the winks and nods to other writers in the genre (mmm...barbecue sauce). For new new fans this is a great introduction, and a fantastic chance to discovery a new writer at the beginning of her publishing career.

This is an intense book that will pull you into the world of all things Paranormal and leave you wanting more. It's a great book to start the series and the author leaves you on the last page wishing there was more to the book because you didn't want to lose any of the characters. I have this NEED to know what happens next and that just doesn't happen to me. Full review here: <http://allnightbooks.com/?p=669>

Let me start out by saying that this is not my preferred genre. I never would have read this style of writing on my own. That being said... I'm completely hooked! Much to my shock, I was sucked into this novel upon reading the first page. Having just lost my own sister, a lot of this book hits very close to home. I got quite attached to the characters right away. Formed alliances with some.. and hatred for others. The book is so very descriptive, you cant help but picture every detail and feel every emotion the author conveys. I laughed and cried countless times. Chapters so heart wrenching, I thought I was dying right along with the characters. Passages so endearing and comical, I thought I was bickering with my own siblings. Love scenes are vivid

and beautifully descriptive without being vulgar or distasteful. This author has power. She makes you feel every emotion you can think off, all thru the eyes of very complex and well developed characters. This novel will change your views of gods and monsters alike. Sometimes things arent always what they seem. I can't wait for the next installment in this series. Fantastic read. I hung on every chapter.
