Through four editions, "Juran's Quality Planning and Analysis: For Enterprise Quality" has provided students and professionals with an authoritative treatment of the subject that goes beyond statistical techniques. The fifth edition of this highly regarded classic book on managing for quality, combines the pioneering concepts of Dr. Joseph M. Juran and the teachings of the late Dr. Frank M. Gryna with the insights and experience of today's leading trainers and consultants at the Juran Institute - Dr. Richard Chua, Executive VP & Six Sigma Practice Leader, and Joseph A. Defeo, CEO & Executive Coach. The trademark Juran Institute approach has been retained, developing the viewpoint that the control of quality requires managerial, technological, statistical, and behavioral concepts throughout all major functions of an organization. With real-world problems provided in each chapter, students are faced with realities that confront managers, designers, engineers, marketers, operations personnel, users, and others involved in the quality function. Contents same as US/UK editions.
