The Left Behinds: The iPhone that Saved George Washington David Potter

Percy Jackson fans will embrace this humorous time travel adventure, the first in a series, about an iPhone malfunction that sends three kids back to 1776 in time to rescue George Washington.

On Christmas Day, Mel finds General George Washington lying dead as a doornail in a stable. But Mel knows that George Washington must cross the Delaware River, or the course of American history will be changed forever.

Could Mel's iPhone have sent him back in time to 1776? And can Mel and his schoolmates, know-it-all Bev and laid-back Brandon, come to the rescue? Perhaps, with a little help from two colonial kids and Benjamin Franklin himself.

Debut novelist David Potter cleverly combines time travel, humor, and American history in this fast-paced adventure. For American Revolution enthusiasts, there's information about historical reenactments, additional reading, and websites.
