**The Technical Director's Toolkit: Process, Forms, and Philosophies for Successful Technical Direction (The Focal Press Toolkit Series)** Zachary Stribling, Richard Girtain

In the world of theatre, the technical director is responsible for overseeing the safe and efficient realization and implementation of scenery for the stage. *The Technical Director's Toolkit* is the first book to address every nut and bolt of this multifaceted job, guiding you through the step-by-step processes of technical direction and the responsibilities of the TD in the mounting of a theatrical production. Leadership, management, relationship building, personal responsibility, and problem solving are addressed, showing you not only how to become a more efficient and effective TD, but also how to be a collaborative member of a production team that artists will seek to work with again and again. The book also addresses scene shop design, facility repair and maintenance, and finishes with a brief overview of other areas of technical theatre that help round out the far reaching skill set of a successful TD.
