Zero Point Tim Fairchild

Deep inside a volcanic lava tube in the Canary Islands, a clue to a Christian archaeological treasure is discovered. Sinister forces, driven by greed and revenge, will stop at nothing in their effort to control the world's newest energy source; an energy device that will make oil obsolete. A new and powerful weapon of mass destruction is on its final countdown to unleash nature's ultimate fury; the likes never before witnessed by mankind. The fanatical leader of a secular movement will stop at nothing to ensure the ancient discoveries are never brought to light, even if it means - murder. It's a race against time as archaeologist, Josh Turner, and his friends, set out to stop the threat and save the lives of millions while seeking to discover the ancient artifacts before they are lost forever. Inspired by the works of Clive Cussler and Tom Clancy; Tim Fairchild, in his premier action/adventure thriller *Zero Point*, blends fiction, history, and science in a daring way and asks the question; what if nature could be used as a weapon against us?
